WELCOME MMDC STUDENTS!

"What a joy to have you on this extraordinary journey filled with endless opportunities, meaningful connections, and the promise of success at MMDC! We are thrilled to have you as part of our vibrant community as we embark together on this exciting adventure of growth and achievement. Here at MMDC, we believe in the power of building strong foundations. We are committed to providing you with the essential tools, knowledge, and experience to equip you for greatness.

As you step into this new chapter of your life, embrace every challenge with courage and enthusiasm. See every obstacle as an opportunity to learn and grow. Forge meaningful connections with your mentors, peers, coaches, and advisors. They will be your support system and companions in this transformational experience. Remember, your time here is not just about academics; it's about discovering your passions, refining your skills, and shaping the person you want to become. So, dream big, set ambitious goals, and work relentlessly to achieve them.

Given MMDC's nurturing environment, expect to be empowered as we push you to your limits. So take a step forward each day, and with every stride, you'll get closer to the extraordinary success you have been dreaming of. Build a future filled with endless possibilities for the world is yours to conquer!"

Welcome to MMDC and let the adventure begin!"

Engr. Dennis H. Tablante
Executive Director, Mapua Malayan Digital College

I. ABOUT MMDC

MMDC: A Better College, I can Afford, Near Me.

Welcome to MMDC!

Mapúa Malayan Digital College, a college under Malayan Colleges Laguna (MCL) is a digital-first college, offering Business and Technology Programs to high school graduates, transferees and working students. At MMDC, we believe that our success depends on the success of our students. As an institution, our focus is on the Learner – first on addressing the needs of this new generation of learners; secondly, on providing an integrated and relevant approach to teaching and learning that prepares them for life, opportunities and employment right after college.

Learners today are often faced with a myriad of challenges. High quality education is unfortunately not the norm, and enrolling in a reputable college is not easily accessible due to its high cost and proximity issues. And yet, if one is able to withstand these, are they truly prepared for what comes next which is the workplace?

Recognizing these challenges, MMDC addresses these gaps by offering college programs conceptually designed to be delivered in a fully online set-up, thereby enabling students to actively participate from wherever they are in the country, without the hassle of travel and commute. In addition, MMDC teaches with a curriculum that prioritizes the training and development of competencies: knowledge, skills, values, attitudes and mindsets needed to thrive in the workplace, to jumpstart the student's 21st century career.

Modernizing College

Guided by the purpose of providing students with a *better college experience*, MMDC takes its students on a digital college journey using carefully curated Tech tools and facilities to allow a seamless transition from the familiar traditional classroom to the online space.

- Students are introduced and operate in an efficient Student Information System (SIS)/Student Portal, a productive Learning Management System (LMS) where course and learning resources are accessed from, and an online conferencing platform where synchronous and mentoring sessions smoothly happen. Thereby, as a whole, empowering each student to independently manage and actively participate in/lead their day-to-day school and learning transactions.
- To ensure accessibility to these digital tools, students are issued a wifi device upon enrollment with a monthly subscription so that connectivity is certain at all times.

- Learning Hubs are also readily accessible, situated in key areas around the metro to reach as many students as possible. Here, students are not only connected digitally but socially as well. The Hubs are conducive venues for both solo studying and group collaborations
- Additionally, students are provided with support and development services from a digital-first approach highlighting a coherent and seamless experience from admission to graduation, and for all activities in between through a team of Integrated Advisors.

Innovative curriculum delivery through Projects, Problems and Cases

At MMDC, students go through relevant, challenging, and collaborative learning-by-doing experience with a pioneering approach unique to MMDC referred to as Projects, Problems and Cases. PPC prepares students by presenting current real-world scenarios informed by the demands and needs of the industry where students will soon operate in. By graduation, students are equipped with both competencies and confidence, ready to take on the challenges and opportunities presented to them.

Accommodates Working Students

The MMDC education set-up offers flexibility to accommodate all types of learners. Required synchronous sessions for each class are offered with both early and late schedules. What's more, these required synchronous sessions typically happen only once a week for each class. The rest of the week, learners may work on their PPCs and tasks asynchronously, and are free to find consultation sessions that work for them and their teachers should they need help. This allows students to find and create options that best fit their work schedule.

A Heritage of Quality Education

The Mapúa-Malayan legacy spans nearly 100 years, beginning in 1925, with the establishment of Mapúa Institute of Technology. The brand expanded outside of Manila in 2007 with the opening of Malayan Colleges Laguna, as well as the opening of Malayan Colleges Mindanao in Davao in 2018.

Since it welcomed its first batch, MCL has garnered a number of accolades: an overall rating of 3 QS stars, with 5 stars for employability, 4 stars for facilities, and 3 stars for social responsibility and inclusiveness. The college is also ISO 9001:2015 certified and has been granted autonomous status by the Commission on Higher Education, enabling the institution to create programs responsive to the needs of the students.

With the introduction of Mapúa Malayan Digital College, the legacy of quality education continues. MMDC brings the rigorous, cutting-edge learning that its academic affiliates are known for to the online space. It is dedicated to developing students who excel and thrive in the modern workplace, who not only have the skills needed in Technology and Business, but who also have key qualities that can help them become leaders, innovators and nation-builders.

The MMDC Tra-digital Shield Logo

MMDC carries with it the academic heritage and quality of Mapua University, continuing with Malayan Colleges in Laguna and Mindanao and reframes it to capture the new and digital-first offering of MMDC that is adaptive to the needs of today's students and the opportunities of tomorrow.

The MMDC logo takes the iconography of the shield as a symbol of an enduring institution. On one side are digital pixels to symbolize modernization, and on the other side is the customary graduation cap, representing tradition, heritage, quality and accomplishment. The logo uses the original Mapúa University Red and Yellow, and Mapua Malayan College Laguna's blue.

MMDC Core Values

We prioritize learners and learning.

We listen to and take care of our learners, creating a healthy and thriving learning experience.

We champion responsibility with urgency.

We create a culture of accountability. We will inspire each other, and our students, to leave no room for complacency.

We are purposely evolving and adaptive.

We will innovate whenever it helps us achieve our purpose and goals.

We pursue excellence.

We iteratively measure our progress to excellence for our students, employees, and shareholders.

We collaborate smarter, harder, and faster.

With dispersed locations, we perform stronger through open communication, receiving and giving support, being proactive and reactive, being trustworthy, and being cooperative.

II. ACADEMIC TERM CALENDAR

Academic Calendar

MMDC operates under the trimestral system. Its academic calendar consists of three (3) regular trimesters of 14 weeks each, as follows:

1. Term 1 - August - December
2. Term 2 - December - March
3. Term 3 - March - June

Term 1 Calendar

AUGUST		
11-15	Fri-Tue	Course Enlistment and Course Sectioning
16-18	Wed-Fri	Enrollment and Payment of Matriculation Fees
19	Sat	Revision of Course Load
22	Tue	**START OF CLASSES**
		Start of New Student Onboarding Orientation - Workshop
24	Thu	Re-enrollees Orientation
29	Tue	Last Day of Submission of Course Load Revision Requests
		Last Day of Late Enrollment for Re-enrollees
29-30	Tue-Wed	Re-enrollees Course Onboarding

SEPTEMBER		
1	Fri	Last Day of New Student Onboarding Orientation - Workshop
4	Mon	Last Day for Cancellation of Enrollment (with refund)
		Start of First Academic Week
5	Tue	Deadline for Request for Section Balancing
11	Mon	Post-Enrollment System Clean-up
OCTOBER		
16	Mon	Last Day for Application for Shifting to Another Program
20	Fri	Term 1 Student Webinar
27	Fri	Last Day to Request to Complete Courses
30	Mon	Last Day for Dropping of Courses
		Last Day for Cancellation of Enrollment (without refund)
NOVEMBER		
6	Mon	Last Day for Submission of Credit Evaluation for Shifters
20	Mon	LAST DAY OF REGULAR CLASSES
		Last Day of Submission of Completion Grades
20-24	Mon-Fri	Submission of Final Outputs
DECEMBER		
1	Fri	Viewing of Final Grades

III. OUR ACADEMIC PROGRAMS

MMDC's Academic Programs provide progressive learning and training experiences, exposing students to real-world, industry-relevant inquiries in the form of Projects, Problems and Cases. The focus is on two key programs: BS Information Technology and BS Business Administration.

I. Bachelor of Science in Business Administration

The Business Administration program produces work-ready graduates for the business sector. Students who graduate in this program can do market studies with financial forecasts and analysis, implement marketing strategies and operations management, as well as hire, manage and develop organizations and human resources, while at the same time, mastering the latest basic technology tools needed to succeed in the workplace. The program aims to prepare graduates for careers in marketing, sales, advertising, customer care, operations, administration, and human resources.

(**Note:** For a full listing of the courses and curriculum flow, please refer to the BA Curriculum Sheet.)

By graduation, Bachelor of Science in Business Administration students shall:

- Be globally competitive business and corporate professionals who bring value to their organizations' internal and external customers
- Be engaged in teams and eligible in leadership positions that contribute to the well-being of companies and communities they serve.
- Be committed to personal and professional development by engaging in further education, training, professional affiliation, research and consultancy.
- Exhibit good work ethics, professionalism, social awareness, and respect for all people in the workplace and community.

Specializations

Marketing Management

A program that prepares graduates for a career in Marketing and Sales, with a focus on the creation and implementation of integrated marketing strategies which include an omnichannel approach in marketing: Retail merchandising, social media marketing, e-commerce platforms, search engine optimization, retargeting, and the use of data analytics for sales, retail, and direct selling to consumers or organizations.

Human Resource Management

A program that prepares graduates for a career in human resources management, recruitment, and administrative work using the latest technological tools. Graduates will learn general administrative tasks and the recruitment, retention, development of human resources, while using data analytics.

Operations Management

The Operations Management program prepares students to manage operations of manufacturing and service enterprises, focusing on the need to efficiently and effectively produce and deliver products and services on time

II. Bachelor of Science in Information Technology

The Information Technology program tackles the study of both software and hardware utilizations to provide effective and efficient solutions that address the needs of various industries and organizations. This program covers skills training on systems development, systems integration and systems infrastructure. designed to equip graduates with exceptional technical, management and soft skills to conduct requirements analysis, develop information systems, integrate and deploy systems, and assist in the management of computing solutions within an organization. The program aims to prepare graduates to become systems developers, junior network engineers, IT educators, technical support, web designers and developers, junior software engineers and solutions providers.

Note: For a full listing of the courses and curriculum flow, please refer to the **IT Curriculum Sheet.**

By graduation, Bachelor of Science in Information Technology students shall:

- Demonstrate industry-based competence and possess the ability to cope with technological changes by engaging in a continuous learning process in the field.
- Exhibit leadership and project management skills in complex and rapidly changing environments.
- Collaborate with a diverse team to design and/or develop solutions for organizational and business processes.

Specializations:

Software and Web Development

This specialization will allow graduates to apply subject matter knowledge in applications and web development. Software and web developers are expected to possess skills in requirements gathering, software design and development, testing, debugging and software deployment to support business operations. Graduates of this specialization are proficient in programming languages and software development tools and standards required by the organization.

Networks and Cybersecurity

Networks and cybersecurity specialization provides graduates technical skills to support network operations administration, and assist in monitoring and maintenance of cyber security systems and applications. Network and cybersecurity analysts are expected to be capable in monitoring system security alerts and events and resolve security-related issues. A graduate of this specialization has in-depth understanding and skills on cyber security standards, protocols and frameworks.

Data Analytics

Data analytics specialization provides graduates sets of skills on basic data cleaning and transformation, and data analysis to support business and product decisions. Furthermore, this specialization provides graduates with the required competence in using development tools to generate reports, dashboards, and analytical solutions. according to business rules and specifications. Data analyst is expected to be meticulous and detail-oriented.

IV. OUR LEARNING MODEL

Projects, Problems and Cases (PPC) model

MMDC's educational approach introduces concepts and develops thinking & skills through PPC. This shift to PPC from a traditional lecture-test model changes the role of the student from a passive participant to an active participant. In the same way, the teacher shifts from being a lecturer to a coach. Because students actually work on, and solve real-world scenarios instead of just memorizing information, they are able to build workplace relevant capabilities that make them more equipped and competitive.

These Projects, Problems, and Cases are:

1. Integrative - each project, problem or case challenges students to apply concepts and skills learned from various, otherwise separate disciplines to formulate coherent and innovative solutions
2. Not just for grading - the mentor works with the learners throughout the PPC to support and guide them through the challenges and tasks
3. Not a single submission - the students are given the opportunity to receive feedback and try to improve on their work to drive continuous improvement.

Personalized Mentoring and Coaching Approach

MMDC students will experience a personalized Mentoring and Coaching Approach which will serve as guides in their digital learning journey. Students' mentors and coaches are assigned to help in the following areas:

1. Mentors. Mentors are responsible for monitoring the students' course-related concerns and progress. Their scope of responsibility includes:

1.1 Conducting synchronous sessions with their students, engaging them in discussions related to their academic progress, course materials, and other relevant topics;

1.2 Conducting one-on-one or small group mentoring sessions with their assigned students, providing guidance, feedback, and support to enhance their academic performance and overall development;
1.3 Ensuring that students are accessing their LMS, attending their synchronous sessions, and booking mentoring sessions regularly;
1.4 Ensuring that students are submitting their assignments, milestones, and terminal assessments on time;
1.5 Resolves any conflict between group members in any activity, task, or output that requires collaboration among students;
1.6 Establishing constant and open communication with students to address course-related and/or student well-being issues and concerns which includes, but is not limited to, non-academic, personal, health, and administrative concerns;
1.7 Establishing supportive and constructive mentoring relationship with their students;
1.8 Keeping track of their assigned students' course-related concerns and academic progress, identifying any challenges or areas that need attention;

1.9 Monitoring student engagement activities of students to identify At-risk Student and promptly reporting them to Academic Support Specialists (Coaches), Integrated Advisors (IAs) , and/or Program Heads when students show signs of inactivity and/or disengagement; and

1.10 Collaborating with IAs and/or Academic Coaches and Program Heads to ensure coordinated support for the students' academic success.

2. Academic Coaches

As for your academic coaches, they are responsible for monitoring engagement of new students during their initial three terms of enrollment. Their scope of responsibility include:

2.1. Providing personalized academic guidance and support to new students to ensure a smooth transition and successful integration into the MMDC community;

2.2. Assisting in the development and monitoring of the implementation of a Balance Plan of new students at the start of the term. A Balance Plan is a support mechanism of MMDC for students who will be identified as needing help in planning their plan to balance study and life/work;

2.3. Monitoring the progress of students who perceive themselves poorly concerning their proficiency in English and Math;

2.4. Ensuring that new students are accessing their LMS, attending their synchronous sessions, and booking mentoring sessions regularly,

2.5. Ensuring that new students are submitting their assignments, milestones, and terminal assessments on time;

2.6. Ensuring that new students are in constant communication with their mentors;

2.7. Establishing constant and open communication with new students;

2.8. Reports to and assists the mentor in resolving any conflict between group members in any activity, task, or output that requires collaboration among learners;

2.9. Monitoring the student engagement activities of new students and identifying any early signs of academic challenges or difficulties;

2.10. Providing advice and guidance to new students and collaborating with the Student Affairs unit to address student well-being issues and concerns which includes, but is not limited to, non-academic, personal, health, and administrative concerns;

2.11. Collaborating with Academic Administrative Assistant, Mentors, Program Heads, and Student Affairs units to address the specific needs of New Students and offer appropriate interventions when necessary;

2.12. Monitoring and initiating intervention to At-risk Students to get them back on track with their studies; and

2.13. Working closely with At-risk students in implementing the identified re-engagement activities and to get them caught up with the missed course materials, synchronous sessions, and outputs.

V. DIGITAL TOOLS

Our Digital Tools

MMDC provides its students with the right tools to equip them in their academic journey and real-life scenarios.

I. CAMU

Mapua Malayan Digital College's Fully Online Degree programs are powered by CAMU, a virtual learning environment and learning management system. CAMU is a digital campus that combines a Student Information System (SIS) and Learning Management System (LMS).

CAMU Learning Management System

The LMS, in particular, stores and organizes the content and tools you'll need; supporting you, the learner, as you go through and engage in the course you're enrolled in. This means you no longer have to bookmark or remember a bunch of sites and login details.

Through CAMU, online modules and learning materials are available anytime and anywhere, allowing for convenient, self-paced learning that you can easily fit into your busy or erratic schedule. All the course materials are loaded here. Learners may also track their academic progress in CAMU since scores per output per course are also automatically reflected here. Please see this link for its LMS features: CAMU LMS features.

CAMU Student Information System

The Camu SIS section covers inquiries and support related to the institution's Student Information System (SIS) platform.
For the instructional material on setting up your CAMU account, enabling the 2-step verification on your Google account, submitting a service request, please see via this link: CAMU SIS features.

II. Google Workspace

Google Workspace (formerly G Suite) is a suite of cloud-based productivity tools developed by Google to enhance collaboration, communication, and productivity for individuals and teams. Here are the descriptive features and functions of each Google Workspace application: Drive, Meet, Docs, Sheets, Calendar, Gmail, Google Spaces, and Slides. Please access this site for the instructional content about the aforementioned items: Google Workspace Tools- Instructional materials.

Google Single Sign-On (SSO)

Single Sign-on (SSO) lets users sign in just one time to get access to all their applications. This means that you can sign on to your learning tools without re-entering your username and password. Google SSO provides you better experience in exploring your learning tools as you may use your MMDC account to access these tools.

We recommend using Google Chrome since you can save your MMDC login information.

Camu, as part of your learning tools, uses SSO to log in. This is aside from the login credentials provided by Camu.

For instructions on using the correct account, please see this link: Google Single Sign-On Instructions

Google Drive

Descriptive Features: Cloud Storage: Google Drive is a cloud-based storage service that allows users to store, access, and manage files and documents securely from anywhere with an internet connection.

- Collaborative File Sharing: Users can easily share files and folders with others, granting view or edit access, making it an excellent platform for team collaboration.
- Integration with Google Workspace: Google Drive seamlessly integrates with other Google Workspace applications, such as Docs, Sheets, Slides, and Meet, enhancing productivity and collaboration.
- Offline Access and Syncing: Users can access files offline and make changes, and the changes are automatically synced when they reconnect to the internet.

- Version History: Google Drive keeps track of file changes, allowing users to access previous versions and restore earlier states of a document.
- File Preview: Drive provides a file preview option for various file types, allowing users to view files without downloading them.
- Security and Permissions: Users can set file permissions, control sharing settings, and add password protection to ensure data security.

Key Functions:

- File Management: Users can create, upload, organize, and manage files and folders within Google Drive.
- File Sharing and Collaboration: Google Drive allows users to share files with specific individuals or groups, enabling real-time collaboration and feedback.
- Google Workspace Integration: Users can create and edit Google Workspace files (Docs, Sheets, Slides) directly within Google Drive, promoting seamless workflow.
- Search and Filter: Drive offers a powerful search and filter functionality, allowing users to quickly locate files based on keywords or file attributes.
- Offline Access: Users can enable offline access for specific files, enabling them to work on documents even without an internet connection.
- File Preview and Quick View: Drive provides a preview option for various file types, allowing users to view the content without the need to download the file.
- File Versioning and History: Google Drive automatically saves versions of files, enabling users to track changes and revert to previous versions if needed.

Google Meet

Video Conferencing: Google Meet is a powerful video conferencing platform that allows users to host virtual meetings with participants from anywhere in the world.

- Real-Time Collaboration: Users can conduct live video meetings and collaborate in real-time, making it ideal for remote teams, online classes, and virtual events.
- High-Quality Video and Audio: Google Meet provides high-definition video and clear audio to ensure smooth communication during meetings.
- Screen Sharing: Participants can share their screens to showcase presentations, documents, or demonstrate software during the meeting.

- Chat and Messaging: Meet's built-in chat feature allows users to send instant messages, links, and files during video calls, promoting seamless communication.
- Live Captions and Translation: Google Meet offers live captions to transcribe spoken words into text, as well as translation features to support multilingual communication.
- Integration with Google Calendar: Users can easily schedule and join Google Meet sessions directly from Google Calendar events.

Key Functions:

- Host and Join Meetings: Users can create and host video meetings, and participants can join meetings by clicking on the provided link or dialing in with a phone number.
- Present and Share Content: Participants can share their screens, present slides, documents, or videos to enhance collaboration and communication.
- Record Meetings: Google Meet allows users to record video meetings for later reference or sharing with absent participants.
- Moderation and Security: Hosts can control access to meetings, manage participants, and enable security features like meeting passwords and waiting rooms.
- Device Compatibility: Google Meet is accessible on various devices, including desktops, laptops, smartphones, and tablets, with dedicated mobile apps for Android and iOS.

Gmail

Gmail is a widely used email service that provides efficient communication and organization tools.

- It offers ample storage space and excellent spam filtering, ensuring a clutter-free inbox.
- Gmail is accessible on various devices, including smartphones and tablets, making it easy to stay connected on the go.

Key Functions:

- Compose, send, and receive emails with attachments, images, and links.
- Organize emails using labels and folders for better categorization and easy retrieval.

- Utilize powerful search features to find specific emails quickly.
- Use Gmail's integrated chat and video call features to communicate with contacts in real-time.

Google Docs

Google Docs is an online word processing application that allows users to create, edit, and collaborate on documents in real-time.

- It provides a simple and intuitive interface for creating various types of documents, such as essays, reports, resumes, and more.
- Documents are automatically saved to Google Drive, ensuring that work is never lost.
- Collaboration features enable multiple users to edit the same document simultaneously, making it ideal for group projects and team-based work.

Key Functions:

- Create and format text documents with a wide range of fonts, styles, and formatting options.
- Add images, tables, and other media to enhance document content.
- Use the comment and suggestion features to provide feedback or collaborate on the content with others.
- Work offline by enabling Google Docs offline mode, which syncs changes when the internet connection is restored.

Google Sheets

Google Sheets is an online spreadsheet application that empowers users to create, analyze, and visualize data in a tabular format.

- It offers powerful data manipulation and calculation capabilities, making it suitable for managing budgets, tracking expenses, conducting data analysis, etc.
- Similar to Google Docs, Sheets allows real-time collaboration with others, promoting efficient teamwork and data sharing.

  Key Functions:

- Create and format spreadsheets to organize and analyze data.
- Use built-in functions and formulas to perform calculations and manipulate data.
- Create charts and graphs to visualize data trends and patterns.
- Utilize features like data validation and conditional formatting to ensure data accuracy and enhance readability.

Google Slides

Google Slides is a web-based presentation tool that facilitates the creation of visually appealing slide decks.

- It provides various templates and themes to create professional presentations easily.
- Slides, like other Google Workspace applications, supports real-time collaboration, making it ideal for group presentations.

Key Functions:

- Create, edit, and customize presentation slides with text, images, charts, and multimedia elements.
- Choose from a wide selection of presentation templates and themes.
- Collaborate with others to work on the same presentation simultaneously.
- Present slides directly from the browser or download them in various formats (e.g., PowerPoint) for offline access.

Google Calendar

Google Calendar is an online scheduling tool that helps users organize their events, appointments, and tasks efficiently.

- It offers a user-friendly interface, allowing users to manage personal and professional schedules in one place.
- Calendar events can be easily shared with others, enabling seamless coordination and scheduling among team members.

Key Functions:

- Create and manage events, meetings, and tasks on specific dates and times.
- Set reminders and notifications to stay on top of important events and deadlines.
- View multiple calendars simultaneously, making it easy to manage personal and group schedules.
- Sync with other calendars (e.g., Outlook) to have a unified view of all appointments.

Google Spaces

Google Spaces is designed for focused discussions, knowledge sharing, and project collaboration within teams or groups.

- It allows users to create dedicated spaces for specific topics or projects, streamlining conversations and document sharing.
- The tool promotes seamless integration with other Google Workspace applications, enabling efficient collaboration.

Key Functions:

- Create dedicated spaces for specific projects, discussions, or topics.
- Share and collaborate on documents, images, and other media within each space.
- Engage in threaded conversations to keep discussions organized.
- Access shared spaces and content with team members in real-time.

By leveraging the capabilities of each Google Workspace application, you can streamline your projects, workflows, enhance productivity, and foster seamless collaboration among your peers and mentors.

III. E-learning resources

Digital Learning Tools: MMDC E-Library & Services

This section provides information on accessing and utilizing MMDC E-Library & Services available for the students.

By clicking the button below, college students can conveniently access all the available resources and library services offered by MMDC. This link serves as a gateway to a comprehensive range of valuable academic materials, research databases, e-books, e-journals, and other essential resources that support students in their learning and research endeavors. Whether you need access to scholarly articles, reference materials, or specialized databases, this centralized platform provides a seamless and user-friendly experience. Make the most of your academic journey by utilizing the MMDC Resources and Library Services accessible through the provided link: MMDC CLIR.

Other E-learning resources

1. eBooks
    - Britannica Academic

- Gale Books
- Vitalsource eTextbooks

2. eJournals
    - Science Direct
    - Philippine E-Journals
3. Open Educational Resources
4. Free Access Databases
5. Trial Databases

IV. Institution's position on the use of AI tools

Generative AI Policy for MMDC:

At MMDC, we recognize the significant potential of generative artificial intelligence (AI) as a productivity tool, particularly in the realm of written outputs. This policy outlines our stance on the careful and transparent use of generative AI within our college community, emphasizing its positive role as an aid to enhance learning and academic growth.

1. Importance of Generative AI in College:

    Generative AI is poised to become an essential tool for the future, providing opportunities for increased efficiency and innovation. While its application in grade school and high school environments may present some difficult decisions, at the college level, we encourage students to embrace and learn how to utilize generative AI as part of their educational journey.

2. Responsible Use of Generative AI:

    Students are expected to exercise caution when using generative AI, ensuring it serves as an assistance tool rather than a means to bypass thinking. Brief and thoughtless prompts that merely task generative AI with completing college work on behalf of the student won't help students learn and won't help students succeed when they graduate from college. Further, these types of outputs will be detectable in their general and generic nature. They will lack specificity - and professors will spot this and not accept this work. Instead, students should provide long and detailed prompts that reflect their own thought processes. Good use of generative AI requires telling it, in detail, what you want it to write. This approach encourages students to engage with generative AI in a manner that promotes personal growth and comprehension of the subject matter.

3. Iteration and Editing:

When utilizing generative AI, it is crucial to recognize that the output it generates should be treated as an iterative process. The initial output from the AI system should be carefully reviewed, refined, and iterated upon by the student. This is done by literally directing the generative AI to add, change, delete and edit what its prior versions. This iterative approach ensures that the final product reflects the student's own understanding, thoughts, goals and intentions.

4. Enhancing Language Skills:

Generative AI can be particularly beneficial for students who struggle with writing in English, as it can help improve grammar and syntax. It is important to remember that generative AI should not replace the student's effort to develop their language skills. It should serve as a support mechanism, providing suggestions and guidance, while the student actively engages in the learning process.

For example, when a student plans to produce a written output that is approximately 2 pages and 7 paragraphs, they can type each paragraph into the prompt and simply direct the generative AI to correct the grammar and syntax. The generative AI will “clean up” the English, quite nicely. The student can then re-read what the generative AI produced, noting the difference between what she wrote and the AI wrote. Through this, the student can see how to produce more accurate sentences. A student should never just copy and paste what generative AI wrote, without reading it and being sure it reflects THEIR thoughts and ideas, simply written with better English.

5. Disclosure of Generative AI Use:

Students must indicate whether they have utilized generative AI to assist in their writing tasks when submitting assignments to professors. This disclosure is meant to foster a culture of transparency and open communication. It is important to note that indicating the use of generative AI will not be counted against students in the grading process. We value academic honesty and believe that acknowledging generative AI use can contribute to constructive feedback and support from professors.

6. Limits of Generative AI in Dealing with Recency of Information:

While generative AI holds great promise as a tool to aid students in their academic pursuits, it is essential to acknowledge its limitations, particularly concerning the recency of information. Generative AI systems are trained on vast amounts of data up until a specific cutoff date, which means they may not possess knowledge of events or developments that have occurred after their training data was last updated. This limitation implies that generative AI might not accurately reflect the most recent information, emerging trends, or current events. Therefore, it is crucial for students to exercise caution when relying solely on generative AI outputs as a source of up-to-date and accurate information. To address this limitation, we encourage students to complement generative AI with additional research and verification methods, ensuring the inclusion of the latest information relevant to their academic work.

MMDC aims to create an environment where generative AI is harnessed responsibly, fostering academic growth and empowering students to develop critical thinking skills. We trust that our students will embrace the potential of generative AI while upholding the principles of integrity, transparency, and personal growth in their academic pursuits.

This policy is subject to periodic review and may be updated as technology advances and new considerations arise.

VI. OUR POLICIES

I. Admissions and Enrollment

The whole admission and enrollment process is done online beginning with the submission of a filled-out application form available at MMDC's website. During the whole process, Admissions Advisors are assigned to student applicants to ensure they are guided and supported throughout the whole process as well as all queries and concerns are addressed.

New student applicants per degree programs are classified as either a freshman, a transferee, or a degree holder. Appropriate admission evaluation and/or its equivalent is administered to qualified applicants based on the degree of their previously acquired knowledge and proficiency.

II. Application Requirements:

The new student applicant is asked to prepare and submit the following documents and credentials:

- Proof of High School completion or College experience
    - For college freshman applicants: original High School/ Senior High School report card showing applicant's eligibility for admission to college, duly signed by the High School Principal.
    - For returning students: Transcript of Records, Course Descriptions, accomplished Request for Credit Evaluation Form (RCEF)
- Recent certificate of Good Moral Character (issued year of completion) from the High School Principal or from the employer
- Photocopy of Philippine Statistics Authority (PSA) birth certificate
- Valid government issued ID of the student (and parent when student is a minor) - Passport, Driver's License, UMID, Philhealth ID, TIN ID, Postal ID, Voter's ID, PRC ID, Senior Citizen ID, OFW ID, National ID
- Recent 1.5 x 1.5 photo with white background

III. Acceptance and Enrollment Process

1. Upon receiving the letter of acceptance through email, students submit the rest of the required enrollment documents and MMDC forms:
    - Transfer Credentials
    - Affidavit of Undertaking
    - Statement of Compliance
    - Fraternity Waiver Form
    - Tuition Fee Protect
2. Student chooses and finalizes their program, courses, time block (morning, mid and afternoon blocks or non-block schedule), as well as the chosen payment options, which may be done through any of the following channels:
    - GCash, thru the Bills Payment feature
    - RCBC Online Bills Payment
    - RCBC Over the Counter
    - MLhuillier Bills Payment
    - Maya Online Bills Payment

    Note: For students needing flexible financing options, MMDC is offering an installment payment option through its partnership with Bukas.ph.

3. Students receive the Generated Schedule and Assessment (GSA).
4. To formally enroll, students pay through the accredited payment channels.

5. The enrollment process is concluded by the payment of fees through the accredited payment channels. Enrollee then receives an Enrollment Confirmation Email, which also signifies the end of the enrollment process.

IV. Tuition Fees and Payment Schedule

Tuition or Matriculation Fees and other charges prescribed by MMDC are with approval from the Commission on Higher Education. Notice of any increase in fees is announced in advance.

All fees are payable upon admission of the student to MMDC. To aid, payments may be done both in full or through an installment plan. All such fees must be paid in full whether the student completes his studies or not during a given term.

Students can avail of the following terms of installment payment. A student, upon enrollment, is considered enrolled for the whole term, and therefore, fees paid in full or under the installment plan are not refundable, except in specified cases.

Installment 1		
1st payment	40% of balance	Upon enrollment
2nd payment	30% of balance	Usually on the 4th week after the 1st day of classes
3rd payment	30% of balance	Usually on the 8th-10th week after the 1st day of classes

Installment 2		
1st payment	20% of balance	Upon enrollment
2nd payment	40% of balance	Usually on the 4th week after the 1st day of classes
3rd payment	40% of balance	Usually on the 8th-10th week after the 1st day of classes

V. Request for Student Documents

1. Request for Diploma

A graduate from MMDC - Malayan Colleges Laguna is eligible for the issuance of a Diploma. The diploma is issued only once. For a duplicate copy, a letter addressed to the Registrar stating the reason for the request must be submitted.

2. Request for Transcript of Records

Any student may request for an official Transcript of Records by submitting a Service Request through the MyCamu Student Portal.

The Transcript of Records shall be issued only to the student or to his authorized representative and/or the college or university where the student transferred. Please note that an Official Request Form from the college or university is required together with the Return Slip of The Transfer Credentials prior to the release of the Transcript of Records.

3. Request For CHED Certification, Authentication And Verification

A student requesting for CHED Certification, Authentication and Verification (CAV) for Baccalaureate Programs must submit the following documents to the Service Request, after submitting a Service Request through the MyCamu Student Portal:

- A clear duplicate copy of the Official Transcript of Records
- A clear duplicate copy of the Diploma
- A Certification of Enrollment (for undergraduates only)
- A letter of authorization to transact and/or to claim (if the student is not available)

4. Request For Diploma/Transcript of Records Authentication (Local)

A student requesting for Certification of Diploma/Transcript of Records for local use must submit the following documents to the Registrar's Office:

- A clear duplicate copy of the Diploma and /or Transcript of Records.
- A letter of authorization to transact and/or to claim (if the student is not available)

5. Mailing of Transcript of Records to Entities Other Than the Student

A student of MMDC- Malayan Colleges Laguna may request for the Official Transcript of Records and release the document either through facsimile, electronic mail or postal mail services. The student must submit a Service Request and indicate the

details of the addressee (Contact Person and Designation, Name of Organization, Complete Address).

The Official Transcript of Records shall be sent to the addressee within twenty one (21) working days from receipt of request and payment of transcript and mailing fees.

6. Transfer Credentials (Honorable Dismissal)

All inactive students/graduates who shall transfer to another Higher Educational Institution may apply for Transfer Credentials (Honorable Dismissal) through a Service Request from MyCamu Student Portal. Upon request for the transfer credentials, a student may also request for the following:

- Certified True Copy of Grades
- Certification of Course Description
- Certified Copy of F-137a and/or F-138
- Certificate of Attendance/Number of Units Earned

7. Certifications

Other academic record-related certifications may be issued upon request of the student from the Registrar's Office through a Service Request.

The Certification shall be available for release one to two weeks from the time of request.

VI. Course Load Policies

Maximum Course Load

Under the Trimester system of Mapua Malayan Digital College, the regular academic calendar consists of three (3) regular terms of fourteen (14) weeks each. The maximum student load per regular term is 18 units.

Revision of Course Load

A student who has paid his fees during enrollment but who wishes to apply for revision due to erroneous course load may do so during the "Revision of Load" period. Students must fill out the request form available. Failure to revise the course load within the prescribed period shall mean payment of fees for dropped courses.

No student shall be allowed to add courses to her current load after the revision period. Revision of course load should not violate the following:

- the pre-requisite course regulation
- the co-requisite course regulation

To Request for Course Load revision, students can submit it to iaservices@mmdc.mcl.edu.ph or https://support.mmdc.mcl.edu.ph/hc/en-us

- Enrollment Advising slip
- Proof of payment (P50 per form) for the processing fee

Dropping Courses

A student desiring to drop a course must do so not later than the deadline set by the Registrar's Office. Any student who is allowed by the Registrar to drop the course for justifiable reasons shall be given a grade of "DRP". A student wishing to drop a course must fill out the Application for Official Dropping of Course and submit it at iaservices@mmdc.mcl.edu.ph along with the proof of payment of P50 (per subject) and must do so not later than the 10th week of classes.

Shifting to Another Program

Shifting is the voluntary transfer from one program to another program. A student may be permitted to shift from one program to another if his readmission status is "OK". A student may shift several times from one program to another upon approval of his shifting application. Shifting to another program shall take effect on the succeeding term after the request to shift has been approved.

For Shifting to a Another Program, the following documents must be submitted to the iaservices@mmdc.mcl.edu.ph

- Application to Shift to a new program of study form
- Crediting form
- Proof of payment (P50) for the processing fee

Cancellation of Enrollment

Any student who wishes to discontinue his studies during the term must notify the Registrar's Office in writing not later than the 10th week of the term. The cancellation shall take effect only upon receipt of his application for cancellation by the Registrar.

A student who filed for cancellation of enrollment within two (2) weeks from the beginning of classes is eligible for a refund in accordance with Section 100 of the 2008 Manual of Regulations for Private Schools (MORPHE) that states:

"Unless otherwise provided by institutional policies, rules and regulations, a student who transfers or withdraws, in writing, within two (2) weeks after the beginning of classes, and who has already paid the pertinent tuition and other school fees in full or for any length longer than one month, may be charged twenty-five

percent (25%) of the total amount due for the school term if he withdraws within the first week of classes, or fifty percent (50%) if within the second week of classes, regardless of whether or not he has actually attended classes. The student may be charged for all the school fees in full if he withdraws any time after the second week of classes."

Non-compliance with the two-week cancellation period shall result in the forfeiture of the student's right to any refund of fees paid by him.

A student shall not be allowed to cancel his enrollment without the written consent of his parents or guardian. Together with the

For Enrollment Cancellation, the following documents must be submitted to the iaservices@mmdc.mcl.edu.ph

1. ***MMDC-MMCL OCR 004A Application for Cancellation of Enrollment***
2. ***A request letter from the student, if of legal age, or parents or guardian if not.***
3. ***Copy of any valid ID***
4. ***Proof of payment (P50) for the processing fee***

Leave of Absence

A student who needs to go on a leave of absence (LOA) for a period of more than one term should file a STUDENT LEAVE OF ABSENCE on or before the deadline set by the Office of the Registrar before the end of the enrollment period.

For application of Leave of Absence, the following documents must be submitted to the iaservices@mmdc.mcl.edu.ph

- MCL MMDC OCR 009A LOA form
- *A request letter from the student, if of legal age, or parents or guardian if not.*
- *Copy of any valid ID*
- *Proof of payment (P50) for the processing fee*

Note: If the reason for application is due to MMDC limited course offerings processing fee shall be waived.

VII. Academic Policies

STUDENT ENGAGEMENT POLICY

Student engagement refers to the active participation, interaction, and involvement of students in their online learning activities. It encompasses various forms, including but not limited to:

1.1.1. Students who join the Google Meet bridge for a synchronous session and stay for more than thirty (30) minutes are deemed engaged and shall receive merit.

1.1.2. Students who miss synchronous sessions can recover grade deductions by watching the synchronous session recordings and reporting/discussing the same with their mentors before the next synchronous session.

1.1.3. Mentors shall adjust the attendance grade of the learner if and when the student was able to discuss the synchronous session recording with them.

1.1.4. Students who miss multiple synchronous sessions without notice or valid reasons shall be contacted by their Academic Coaches for follow-up.

1.1.5. Mentors are expected to monitor the students' attendance to synchronous sessions and coordinate with the Academic Coaches any inactivity from learners for follow-up.

1.1.6. Academic Coaches shall periodically review the New Students' attendance patterns for early intervention. The Academic Administrative Assistant will monitor Continuing Students' attendance and report any inactivity from students to the IAs for prompt action.

1.1.7. If students are unable to attend synchronous sessions due to unforeseen circumstances, they must notify their mentors and Academic Coaches of their absence and arrange for any missed materials or recordings.

1.1.8. In cases where the synchronous session schedule falls on a holiday, or in cases of class suspensions, the class must utilize the nearest mentoring session schedule to conduct the week's synchronous session.

1.1.9. In cases where the course is designed to hold no synchronous sessions for the week, mentors are encouraged to conduct mentoring sessions in lieu of synchronous sessions.

1.2. **Mentoring Sessions.** Mentoring sessions involve one-on-one or small group interaction between students and mentors to provide course-related guidance and support in solving problems, projects, and cases.

1.2.1. Regularly meeting with Mentors provides students with guidance, support, and personalized feedback to navigate their academic and personal development. Mentoring sessions foster a safe space for students to discuss challenges, set goals, and receive constructive advice, leading to improved self-confidence, increased motivation, and a clearer sense of direction in their educational journey.

1.2.2. Mentors are expected to address topic-related, course-related, or output-related issues and concerns of the students and guide them by demonstrating key actions needed, or sharing, simulating, and analyzing real-world situations relating to the learner's inquiry.

1.2.3. Students can book mentoring sessions through the Mentoring Schedule and Sign-up Sheet found in the LMS.

1.2.4. Students are expected to book mentoring sessions regularly to help them solve their assignments problems, projects, and cases. Mentoring sessions provide an avenue for feedback, allowing learners to identify areas for improvement (AFI) in their outputs.

1.2.5. Mentoring sessions can be held using different channels of communication such as video communication, chat, and/or email.

Students and mentors are encouraged, however, to use communication platforms such as Google Meet for better instruction delivery.

1.2.6. In cases where students cannot attend mentoring sessions, they must cancel or reschedule in advance to let other students utilize the time slot.

1.3. **Assignment and Milestone Submission.** Assignments and milestones are designed to help students practice and apply the concepts, theories, and skills learned during the course.

1.3.1. Milestones and terminal assessments constitute the eighty-five percent (85%) of the learners' final grade. However, assignments play an important role in the completion of the learners' milestones and terminal assessments as they serve as scaffolds for these assessments.

1.3.2. Assignments are forms of formative assessment. This form of assessment involves providing feedback to learners during their learning phase to help them improve and understand weekly concepts and topics. Students are expected to submit and Mentors are required to evaluate assignments on time.

1.3.3. Milestones and terminal assessments are forms of summative assessment. This form of assessment involves evaluating learners' overall understanding of the course. Students are expected to submit and Mentors are required to evaluate milestones and terminal assessments on time.

1.3.4. Submission of assignments, milestones, and terminal assessments should only be done through CAMU. Submissions in other platforms such as email or chat are highly discouraged and shall not be subject for evaluation.

1.3.5. In cases where the assignment or milestone requires group work, students are expected to submit their outputs individually in Camu. No Camu submission, no grade.

1.3.6. During submissions, students are required to submit a link to their Google Drive folder containing their assignment, milestone or terminal assessment, so that in situations where a learner is required to revise their outputs, there is no need to re-submit another link in CAMU.

1.3.7. Students are expected to have their assignments, milestones, and/or terminal assessments evaluated by their mentors through regular mentoring sessions to identify areas of improvement in their outputs before the submission date. Regular feedback from mentors are crucial to the improvement and completion of the students' problem, project, or cases thereby resulting in getting better grades.

1.3.8. Students forfeit the opportunity to have the revision evaluated a second time and must submit the revised output in Camu if they book a mentoring session for the evaluation of their assignment, milestone, and/or terminal assessment beyond the deadline for submission. Mentors may still evaluate the output and provide feedback in these situations.

1.3.9. For output revisions, it is advisable that students re-submit a revised file and indicate on the file its date and number of versions. Naming of revised files for submissions will be part of the instructions found in CAMU.

VIII. MMDC Grading system

Course Grade

1. Students shall be graded or marked in accordance with the following grading system:

Grade/Mark	Percentage/Equivalent	Description
1.00	Above 96.00	Excellent
1.25	91.51 - 96.00	Superior
1.50	87.01 - 91.50	Very Good

1.75	82.51 - 87.00	Good
2.00	78.01 - 82.50	Meritorious
2.25	73.51 - 78.00	Very Satisfactory
2.50	69.01 - 73.50	Satisfactory
2.75	64.51 - 69.00	Fairly Satisfactory
3.00	60.00 - 64.50	Passed
5.00	Below 60.00	Failed
INC		Incomplete
DRP		Dropped
P		Passed
F		Failed

2. A grade of 5.00 or F will be given to a student who: failed to meet the minimum final grade; unofficially dropped; or has a proven case of academic dishonesty.

3. A mark of lNC will be given to a student who fails to complete the required minimum number of milestones due to illness or other valid reasons, provided that the projected completion results of the deficient final course requirement/s will merit a passing grade when integrated in the final computation of the grade.

4. The mark of INC must be completed within the succeeding term; otherwise, the grade of INC lapses and the student shall be given a grade of 5.00 or F.

5. A mark of DRP will be given to a student who officially dropped the course within the prescribed period.

Attendance

Synchronous Session attendance shall constitute fifteen percent (15%) of the learners' final grade.

- A 15% attendance grade is earned after 12 weeks of attendance.
- A 12% attendance grade is earned after 11 weeks of attendance.
- A 9% attendance grade is earned after 10 weeks of attendance.
- A 6% attendance grade is earned after 9 weeks of attendance.

- A 3% attendance grade is earned after 8 weeks of attendance.
- A 1% attendance grade is earned after 7 weeks of attendance.
- No attendance grade is earned for attendance of 6 weeks and below.

VII. MMDC STUDENT SERVICES

Student Activities and Discipline

Rationale

The Center for Student Activities and Discipline encourages student engagement and supports the diverse needs and interests of the students. Also, to help them to continue honing their sense of social responsibility, spirited citizenship, leadership skills, creativity and true self-expression via various programs and activities and avenues.

The CSAD (Center for Student Activities and Discipline) also covers the student code of conduct and disciplinary action procedures. We want our students to perceive discipline not as a reactive measure, a mere “band-aid” solution, or as a policing agent, but as a means to life-long learning and their being adaptive to real-world changes and challenges.

Objective

The center’s objective is to ensure students’ overall well-being or welfare as they embark on their digital learning journey. A healthy well-being is central to a student's holistic development into becoming the best that they can be. This is seen to be achieved by engaging, equipping, and enriching students. The center believes that this can be possible largely through the quality of the programs, activities, and events to be organized, and their being anchored on this objective.

1. **Engage**. The center aims to help students build meaningful connections especially during this crucial period - first encounter among the first batch of MMDC students. Engaging students or helping them to be connected also serves as their starting point for building and cultivating interpersonal skills.
2. **Equip**. The center aims to prepare students to adjust to and thrive in their digital college journey. These also aim to help learners to thrive in their current and future careers by putting up activities, programs, and events that are relevant to their fields and skill sets
3. **Enrich**. The center aims to nurture or hone learners' existing skills and capabilities as well as values necessary for them to develop a mindset and culture of embracing life-long learning.

Code of Conduct

The right of MMDC to impose sanctions against improper student conduct is derived from, and is inherent in its primary obligation to:

- exemplifying moral values, ethics, and ideals;
- protecting its property as well as those of the members of the community;
- ensuring the health and overall safety of persons in the academic community;
- preserving peace and ensure orderly procedures;
- safeguarding its good name as an educational institution;
- respecting human rights;
- maintaining and strengthening student morale

The students of MMDC shall always abide by all the laws of the land, all memoranda issued by the Commission on Higher Education (CHED) and all rules and regulations of MMDC. Academic misconduct is any form of dishonesty that constitutes any action or attempted action that may result in creating an unfair academic advantage for oneself or an unfair academic advantage or disadvantage for any other member or members of the academic community. This form of dishonesty violates the values of honesty, self-reliance, respect and responsibility among others that run in contradiction with the values and principles of the institution.

Please see the Student Code of Conduct via this link: MMDC Student Code of Conduct.

Avenues for Student Engagement

1. Student Clubs
   The Student clubs serve as one of the main avenues in which students can express and hone their extracurricular skills and interests as well as avenues in creating and advancing opportunities that will complement their curricular progress, develop and enhance individual and community growth, leadership and cooperation.

   All guidelines, constitution and bylaws for all official MMDC student clubs are indicated in the Student Club Implementing Rules and Regulations.

2. Program Organizations

   BA society and GIGABITS (Guild of Innovators, Gritty, and Brilliant Information Technology Students) IT organization will serve as the main program-based co-curricular group for our students. These organizations will help them widen their networks from the same program but also from different schools and organizations outside MMDC.

3. Center-led activities and events
   MMDC makes it a point to ensure that quality learning is front and center in the learners' experience. The learning referred to is the holistic kind, delivered and experienced through the courses, co-curricular activities, and extracurricular activities. Some of the center-led activities from the previous year were the New Student Onboarding, Christmas Event, Freshie Night, and Year-end Celebration.

4. Communication channels

   The center will primarily communicate with the students through the following channels:

   For announcements:

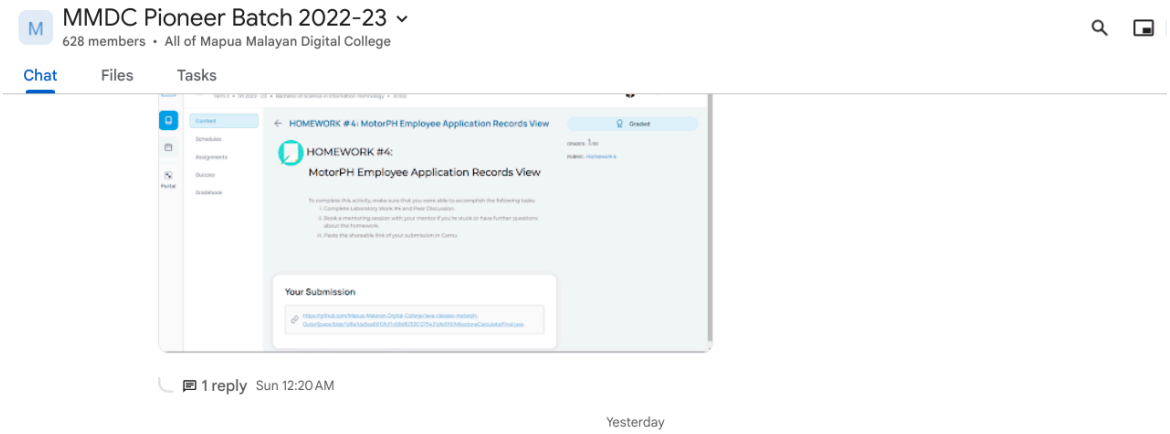
   - CAMU announcement board- As indicated previously, CAMU is the institution's learning management system and student information system, so it is in the CAMU announcement board through which student announcements are primarily coursed.

   - *MMDC Student Affairs Updates* Facebook group under MMDC Facebook Page- This is a communication channel that caters to learners who are active on Facebook. This is where students may connect with each other and where announcements are also posted.

     You may access the Facebook group through this link. Please read and follow the membership rules and instructions carefully to gain access to the group. This is to ensure that members of said group are all officially-enrolled students of MMDC.

   - MMDC Pioneer Google Space- Aside from the IA services, this is also where students may course through their tech-related concerns, including issues with the learning management system. This is also where student activities and

important announcements may be posted on top of the other communication channels mentioned previously.



The Learning Hubs

1. Purpose and Function

The Mapua Malayan Digital College Learning Hub is a dynamic and inclusive center that caters to the diverse needs of our students. Its main goal is to provide a modern and well-equipped space that enhances educational experience. The Learning Hub offers reliable internet connection in order for students to easily access a wide range of online resources and stay updated in their fields of interest.

Ensuring the safety and security of students is of utmost importance. Thus, a safe environment within the learning hub is cultivated, where students can engage in scholarly activities, collaborate with others, and participate in communal events. The Learning Hub has dedicated areas for projects, club activities, and study sessions, encouraging students to interact, share knowledge, and foster an intellectually stimulating atmosphere.

To enhance the learning experience even further, various amenities and resources are provided within the Learning Hub. These include comfortable seating arrangements, modern multimedia facilities, interactive displays, and well-equipped workstations. Our knowledgeable staff members are always available to offer guidance and support, helping students make the most of their time in the Learning Hub and reach their academic potential.

The Learning Hub embodies a vision centered around innovation, creativity, and academic excellence. It serves as a hub where students can passionately explore their

interests, develop their skills, and showcase their intellectual abilities. By actively seeking student feedback and continuously improving our services and amenities, the ever-evolving needs of the student community are met, with the goal being to push the boundaries of educational excellence.

2. Guidelines using the Learning Hub

- Food is not permitted in the Learning Hub. However, students can bring their own water bottles/ covered tumblers.
- Show courtesy to others who are studying. Please set your phone to silent mode. Put your phones in vibrate mode and go outside the Learning Hub to take a call. The same goes for talking loudly, listening to loud music, or acting in a method that disrupts other people at the hub.
- Students are not permitted to bring guests, including children, and pets.
- Students are not permitted to bring firearms, deadly weapons, sharp objects, and flammable objects.
- Learning Hub is a non smoking/vaping zone.
- Do not leave your belongings unattended; MMDC is not responsible for lost or stolen property.
- Computers should be utilized strictly for academic purposes, encompassing laptop troubleshooting, accessing educational content, and attending classes in the event of one's personal laptop malfunctioning.
- The utilization of the facilities mentioned below in the Learning Hubs is exclusively restricted to MMDC students. Moreover, students are advised to seek assistance from the learning hub supervisor or staff while availing themselves of these facilities.
- Students are required to make a booking at least 3 hours in advance before attending the learning hub.
- Students are required to make a booking for the conference room at least 1 day in advance.
- Students must present their digital school ID or student number for verification purposes.

3. Learning Hub Operating Hours

Learning Hubs operate from Mondays to Saturdays from 10am to 7pm, except for holidays, until further notice. For latest updates and changes, students will be updated via our communication channels.

4. Facilities at the Learning Hub

Receiving Area - The Receiving Area serves as a space for visitors and guests of MMDC-related parties, as well as for students to engage in casual conversations with their classmates and create a homely atmosphere within the hub.

Lounge Area - The Lounge Area and Bleachers are ideal spaces for students to engage in comfortable collaboration and meet up with other MMDC students. These areas are not exclusively designated for study purposes but also provide a conducive environment for students to interact and socialize.

Academic Resource Center - The Academic Resource Center is designed to provide students with assistance for technical issues related to their CAMU account, ensuring compliance with tasks for their subjects, printing assistance, and addressing other MMDC-related transactions. Its purpose is to support students in resolving technical problems and facilitating various administrative processes within the college.

Study Pods - The Study Pods will provide a quieter environment for students who would like to concentrate on their studies.

Conference Room - The Conference Room is reserved for group reservations, particularly for future student clubs. This facility is intended to provide students with a private space for collaboration and brainstorming sessions.

Counter Tables - The Counter Tables with high chairs are provided for students who wish to experience a different studying environment, similar to sitting in a cafe.

Integrated Advising Services

Integrated Advising Services at Mapua Malayan Digital College (MMDC) is a dedicated support system designed to handle all non-academic concerns of students. The IA team is committed to providing assistance and guidance to ensure a smooth and successful educational journey for all students.

Channels for Contact

To reach out to the IA team, you can use the following contact channels:

Email: You can send your queries or concerns to iaservices@mmdc.mcl.edu.ph. The IA team will respond to your email promptly and provide the necessary assistance.

Student Affairs - Help Center: Visit the Help Center to raise a ticket for any non-academic concerns. The Help Center ticketing system allows you to track the progress of your request and ensures efficient handling by the IA team.

Mobile:

Luzon	
Mr. Henry Lorino	09285510634
Ms. Khey Sura	09285060719
Ms. April Punay	09989571004
Visayas - Mindanao	
Mr. Leopold Amadeus Baran	09088981894
Mr. Kirbie Lao	09178663088
Ms. Jhanice Lanzar	09209461322

How to Raise a Ticket in Help Center

To raise a ticket in the Help Center, follow these steps:

a. Visit the Student Affairs - Help Center
b. Look for the "Submit a Request" or "Raise a Ticket" option.
c. Click on the option, which will redirect you to the ticket submission form.
d. Fill in the required details, such as your name, contact information, and a clear description of your concern or request.
e. Attach any relevant documents or screenshots, if necessary.
f. Submit the ticket.
g. You will receive a confirmation email with a ticket number for reference. The IA team will review and respond to your ticket as soon as possible.

Student Affairs Help Center

The Student Affairs - Help Center is a centralized knowledge base designed to provide relevant information and answers to frequently asked questions. It serves as a self-service resource for students to find solutions to common queries regarding non-academic matters.

To access the Help Center:

h. Click on the link that leads to the Help Center.
i. You will be directed to the internal Help Center, where you can browse through various categories and articles to find the information you need.
j. If you cannot find the answer to your question, you can consider raising a ticket through the help center ticketing system or contacting the IA team via other available channels mentioned above.

Guidance and Counseling Services

To safeguard each student's mental, psychological, and emotional health and wellness, the Guidance and Counseling Team, composed of licensed Guidance Counselors conducts programs, assessments and resources throughout the school year to provide students with the means and know-how to take on and overcome challenges and stress commonly experienced. Proactively, they initiate group sessions open to all and invite specific students who have been identified as needing intervention and support; reactively they accommodate online consultation sessions as requested by students, as their need arises.

Reminder: Make sure to fill out the Personal Data Sheet and Statement of Confidentiality form. This form aims to bring together all essential information that may enable us to help you meet specific needs particularly in your academic, personal/social and career development. You are encouraged to fill out the Personal Information through an electronic form with utmost care and honesty. Rest assured that all data gathered would be kept confidential.

(Kindly read the data privacy statement thoroughly before filling out the form.)

Requesting for a Counseling Session

1. Initiation of Request

A student aware of the possible signs of distress or difficulties may initiate a counseling request by reaching out to iaservices@mmdc.mcl.edu.ph or by submitting a service request through this link: Counseling Request. An integrated advisor will be coordinating with the college counselor to forward requests for a counseling session.

2. Intake Form

The Center for Guidance and Counseling reviews the intake form that the student has submitted. This form collects essential information about the student seeking

counseling, including personal details, reasons for seeking counseling, relevant background information, and preferred availability for sessions.

This form may be submitted through this link: Intake Form/ Personal Data Sheet and Statement of Confidentiality

3. Review and Assessment

A designated counselor reviews the submitted intake form to gain a preliminary understanding of the student's concerns and needs. This assessment helps in determining the appropriate course of action for scheduling the counseling session.

4. Scheduling your Appointment

The Center for Guidance and Counseling (CGC) will contact the student to schedule the counseling session. They may discuss potential dates, times, and counselor availability to find a suitable appointment that accommodates both you and the counselor.

5. Appointment Confirmation

After finalizing the counseling session's schedule, the student will receive an appointment confirmation. The confirmation typically includes the date, time, meeting link, and the counselor's name.

6. Preparing for the Session

Before the counseling session, the student may receive information about what to expect during the session, confidentiality guidelines, and any recommended preparations to make the most out of their counseling experience.

7. Counseling Session Proper

The student attends their scheduled counseling session. The counselor establishes a safe and supportive environment, actively listens to the individual's concerns, and collaboratively works towards understanding and addressing their needs.

8. Continued Support

Depending on the nature of the student's concerns, additional counseling sessions may be scheduled as part of an ongoing counseling plan. The Center for Guidance and Counseling provides continued support and resources to promote the individual's well-being throughout the counseling process.

Counseling Referrals

A concerned member of the MMDC community such as but not limited to parents, mentors, co-learners, may refer a student to counseling services. A student who has been referred will receive an email notification from the Center for Guidance and Counseling Services inviting them to a counseling session.

Referring a Co-Learner

Anyone who notices signs of distress or difficulties in a co-learner is encouraged to refer them for counseling. Your concern and proactive approach can play a crucial role in helping them access the support they may need. You may refer a co-learner by reaching out to iaservices@mmdc.mcl.edu.ph or by submitting a service request through this link: Counseling Request.

Student Financial Support and Services

The cost of college is not just an expense for the next three to four years, it is an investment in your future. The Center for Student Financial Support and Services manages all aspects of student financial accounts, with the goal to keep each student's account up-to-date and to help exceptional but financially challenged students achieve their academic goals by providing access to scholarships and financial aid programs.

The Center for Student Financial Services also handles the offering and maintenance of scholarships, financial aid & grants and flexible financing.

Currently, MMDC offers the following scholarship and financial assistance programs:

1. **Abanse Negrense Scholarship Program**: This scholarship program supports the Negros Occidental government's advocacy of education as a social institution, a vehicle for employment, and a tool for social mobility. Full-ride scholarships are available to deserving incoming college freshmen from Negros Occidental to help underserved students pursue higher education through financial assistance.
2. **Sipalay City Scholarship Program**: This scholarship program supports the Sipalay City government's advocacy of education as a social institution, a vehicle for employment, and a tool for social mobility. Full-ride scholarships are available to deserving incoming college freshmen from Sipalay City to help underserved students pursue higher education through financial assistance.
3. **Victorias City Scholarship Program**: This scholarship program supports the Victorias City government's advocacy of education as a social institution, a vehicle for employment, and a tool for social mobility. Full-ride scholarships are available to

deserving incoming college freshmen from Victorias City to help underserved students pursue higher education through financial assistance.

4. **Sidlak Scholarship Program**: This scholarship program is intended to help incoming freshmen students from Bacolod pay for their tuition and fees at MMDC. The scholarship is awarded to selected students who meet the minimum qualifications for a 100% or 50% scholarship discount on tuition fees, depending on their ranking. The ranking is based on a point system, and scholarships are awarded on a first-come, first-served basis, up to the number of available slots.
5. **Continuing Education Scholarship Program**: This scholarship program is intended to help deserving working students pay for their tuition and fees at MMDC through industry partnerships. The scholarship is awarded to selected working students who meet the scholarship criteria for a 100% scholarship discount on tuition fees, up to a maximum of 45 units within a two-year period.
6. **Miscellaneous Fees Discount**: MMDC offers a 40% discount on miscellaneous fees to students who enroll in 9 units or less in a given term.
7. **Study Now, Pay Later**: In partnership with Bukas.ph, MMDC students can apply for an affordable tuition installment plan with longer payment terms, competitive interest rates, and a hassle-free online process.

Student Device

How to Request for Pocket WiFi load

As part of its commitment to providing students with a seamless online experience and ensuring uninterrupted internet access and a smooth online learning experience, the MMDC kindly requests students to submit their Pocket WiFi load requests before the 5th day of each month. This will allow the institution to process the requests in a timely manner and guarantee consistent connectivity for the students.

To request Pocket WiFi load, the following steps should be followed:

- The student should visit support.mmdc.mcl.edu.ph.
- Click "Submit a request" is the next step.
- "DEV-Wifi Load Request" should be selected from the options.
- The student needs to provide the necessary information and details in the form.
- Before submitting, it is important to double-check the provided answers.
- After submission, the student should wait for the Integrated Advisor to address the request and process the monthly load for the Pocket WiFi.

The MMDC highly values the cooperation and proactive approach of the students in ensuring the effectiveness of their Pocket WiFi service. It is advised to keep in mind that late load requests might lead to a temporary disruption of the Pocket WiFi service. Students' dedication to meeting this deadline will significantly contribute to a smoother online learning experience.

How to Order Pocket WiFi

As an MMDC student, you have the opportunity to access FREE Pocket WiFi, which has been included as a valuable part of your educational experience. Stay connected, enhance your learning, and make the most out of your time with this convenient offering.

Here are the steps on how to pick up your Pocket WiFi:

- Go to support.mmdc.mcl.edu.ph
- Click Submit a request
- Select DEV-Wifi Pick Up Request
- Fill out the information and details needed
- Double check your answers before clicking submit
- Wait for our Integrated Advisor to attend to your request, as they will be the one to provide confirmation on students to pick up the device.

Payment Guide for Availed Laptop Device

To MMDC Learners who avail Chromebook or Windows laptop, we would like to inform you about the correct payment channel for the laptop device payment. Please note that there is only one designated payment channel for this purpose, and it is important to use this channel to ensure your payment is properly credited for the device.

Please note that payments for the device must be sent thru the Bank Account with details below:

Via bank transfer or over-the-counter deposit ONLY

Bank: RCBC

Account number: 7590-67994-0

Account name: Malayan Colleges Laguna, Inc., A Mapua School

It is essential to follow the instructions provided and use this specific payment channel for the transaction. This ensures that the payment is accurately processed and credited towards your laptop device.

Please be aware that sending the payment through any other channel or method may result in your payment not being credited towards the laptop device. To avoid any complications or delays, please adhere to the provided payment channel and ensure that the payment reaches the intended destination.

Device Payment Warning

For learners who have availed Chromebooks or Windows laptops from MMDC, they are kindly reminded to take note of their device due date. Email payment reminders are sent to them every month to ensure that they are aware of their monthly fees and to encourage settlement on or before the due date.

The importance of settling the monthly payment for the laptop in accordance with the agreed terms and conditions is strongly emphasized. Failure to make timely payments could result in significant consequences that might affect the learners' access to the laptop and their academic journey. As a reminder, the learners are directed to the agreement outlined in the Computer Lease Agreement Form:

1. The learner agrees to pay the full amount of the chosen computer, payable over 30 months (3 school years + 1 term), with monthly payments as specified in the provided table. These payments can be made through MMDC's designated payment channels.

2. The learner acknowledges that failure to make the monthly payment by the due date may lead to the withholding of grades and/or denial of re-enrollment.

Assuming responsibility for financial commitments is crucial to maintaining a seamless academic journey and continuous access to the laptop's benefits. Learners are informed that failure to settle the outstanding laptop payment or making prompt payments could result in legal actions being pursued against them. This could potentially involve legal proceedings and the engagement of debt collection agencies. It is strongly advised to avoid this scenario by promptly settling the outstanding payment. Neglecting the

outstanding balance may lead to additional costs, such as late fees, penalties, or interest charges, further exacerbating the financial burden and complicating the resolution process. Timely settlement of the outstanding payment is recommended to prevent incurring unnecessary expenses.

Learners are urged to recognize that neglecting to address the outstanding payment may compel MMDC to initiate legal actions to recover the owed amount. The institution sincerely hopes to amicably resolve this matter and prevent any further escalation.

Learners are encouraged to prioritize their monthly payments and communicate any financial concerns they may have. IA Services is fully committed to assisting them with any issues they may encounter, and they are encouraged to reach out for further support.

How to Order a Laptop Device

Leasing a laptop for school purposes presents several advantages that align with the dynamic landscape of education and technology. This approach offers access to essential tools without imposing a significant financial burden, coupled with the flexibility to adapt to evolving academic needs.

At MMDC, it is communicated that, if necessary, laptops are available for purchase by MMDC students through a lease-to-own arrangement, with payments spread across a maximum of 30 months.

Prior to initiating an order for a laptop, the following prerequisites are outlined to ensure a streamlined leasing process:

Signed Computer Lease Agreement Form (CLAF)

The CLAF should be diligently completed (see attached file below) and signed. It should then be appended to the service request or sent via email to iaservices@mmdc.mcl.edu.ph.

Proof of Income

Students are required to furnish evidence of income, which may include recent pay slips, income tax returns, or bank statements.

Proof of Address

Students must provide documentation confirming their address, such as recent utility bills, lease agreements, or bank statements.

Proof of Payment: 1st Monthly Installment

Upon satisfying the aforementioned requirements, students must submit proof of payment for the initial monthly installment.

Payment for the device should be executed via bank transfer to the following bank account:

Bank: RCBC

Account number: 7590-67994-0

Account name: Malayan Colleges Laguna, Inc., A Mapua School

Note: Payments are accepted exclusively through bank transfer or over-the-counter deposit.

Parent/Guardian/Co-borrower

Students are mandated to provide the particulars of a parent, guardian, or co-borrower. The mentioned individual's signature, contact details, and address should also be indicated in the CLAF. Responsibilities are shared between the student and the parent/guardian/co-borrower to fulfill the agreement's terms.

In cases where a student, being a minor, is unable to furnish proof of income/address, documents from the parent/guardian/co-borrower will be submitted instead.

It is encouraged to comprehensively review and comprehend the leasing agreement prior to affixing a signature. For laptop leasing inquiries, the IA services can be contacted at iaservice@mmdc.mcl.edu.ph, or a service request can be submitted through the Camu Student Portal.

MMDC anticipates that this guidance will prove beneficial and eagerly anticipates equipping students with laptops that will enrich their educational journey.

Shipping and Delivery

Please be informed that we also allow our students to book a courier on behalf of them to pick up the device at Learning Hub. With that, students are the ones responsible for

the delivery fee and that MMDC has no liability once the device has been picked up and shipped through a selected courier.

Embrace the power of connectivity and make the most of your academic journey with the added convenience of FREE Pocket WiFi. Your seamless online experience is our priority, and we're excited to provide you with this valuable tool. Happy learning!

Akay Referral program

Looking for ways to save for next term's tuition fees? Join our AKAY referral program and earn up to a **P10,000 tuition fee discount** or more! All you have to worry about is your initial payment (at least 20%) and you can work on the remaining balance by earning discounts from this program.

📌**1 successful referral** = P1,000 tuition fee discount / P700 Sodexo GC
📌**Successful referral** = Referee is officially enrolled and is a regular paying applicant (not a scholar).

The more successful referrals, the more you'll earn! Do not forget to inform your referees to indicate YOUR full name and YOUR MMDC email on their application form's referral field as they apply.

Please see more details about the referral program via this link: Akay referral program
